

# LAVAMELT<sup>®</sup>

**ICE MELTER**

**with CALCIUM CHLORIDE PELLETS and CMA**

**IMPROVED FORMULA  
WITH AFP<sup>™</sup>**

**NATURE'S INFERNO!**  
Works down to -25°F

# LAVAMELT<sup>®</sup>

## ICE MELTER

with **CALCIUM CHLORIDE PELLETS** and **CMA**

### IMPROVED FORMULA WITH AFP

- The special AFP (Anti-Freeze Protection) additive helps prevent ice and snow from refreezing, which converts to less applications and money saved!

**FAST ACTING** - LavaMelt<sup>®</sup> is made with Calcium Chloride Pellets, which makes it one of the fastest acting ice melters on the market.

**HOT** - the Calcium Chloride Pellets in LavaMelt<sup>®</sup> allow it to attack the ice and snow with instant HEAT!

**LONG LASTING** - LavaMelt<sup>®</sup> is formulated with high-intensity melting extenders, giving it a long lasting melting life up to 24 hours.

**PACKAGING** - LavaMelt<sup>®</sup> is available in a wide variety of pack sizes. It is available in bags, shaker jugs, pails, boxes, drums and super sacks for larger applications. The bags are designed to be re-sealable.

### COLOR FORMULATED -

LavaMelt<sup>®</sup> is coated with an orange color indicator for enhanced visual impact. This highly visible coloring is non-tracking and non-staining, which helps ensure even and effective distribution of product. Visitors are also given a real sense of security when they can see the ice melter in action.

### TRACTION CONTROL -

LavaMelt<sup>®</sup> is enhanced with "Dolomite" for added safety and traction control.

### CORROSION INHIBITORS

LavaMelt<sup>®</sup> is enhanced with CMA (Calcium Magnesium Acetate), which is an added chloride-free corrosion inhibitor. LavaMelt's<sup>®</sup> special formula forms a bond between the surface area and the elements to allow for ease in snow removal.
